

IS A ZEBRA LIKE A HORSE?

by Will Birkin

Can you ride a zebra?
You may think yes of course,

because they are a stripier,
smaller kind of horse,

but they are also grumpier,
with a bite to give you pause,

and certainly kick thumpier,
they'll break a lion's jaws,

so I really wouldn't ride them:
train a zonkey or a zorse.

*Zonkeys and zorses are real creatures. A zonkey
is the offspring of a zebra and a donkey;
a zorse is the offspring of a zebra and a horse.*
