

On mice

Mice are small.
The chocolate ones are often white.
The ones in other colours
may not be chocolate.
So don't eat them.
Unless you're an Ancient Roman.
Which is unlikely.
There are harvest mice.
They help bring the corn in.
I think there are door mice.
If I said there were window mice
you'd probably see through the joke.
Jerry is the mouse in Tom and Jerry.
Your cousin Jerry is probably not a mouse.
Mice don't live in hicc.
Mice are small.

Rob Walton
